

Proactive Compliance Assurance

Take command of your compliance journey with Vardaan. Riskavaire helps you stay ahead of risk, makes audits effortless, and brings the confidence of complete control and readiness

94%

Business Spreadsheets contain faults that skew decisions

68%

Incidents Human-Error-Driven across 2024 breaches

84%

CCOs expect increased regulatory scrutiny in the next 2 years

1,600

Cyberattacks per enterprise each week in 2024

The Problem

- Increasing regulatory complexity and audit fatigue
- Siloed governance, risk, and compliance workflows
- Manual controls and spreadsheets prone to errors
- Lack of real-time risk intelligence
- Costly, hard-to-maintain legacy GRC systems

The Solution

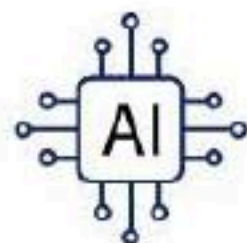

- Introducing RiskaVaire – an intelligent, AI-powered GRC framework
- Unifies governance, risk, and compliance in a single platform
- Leverages AI for predictive risk, automated compliance, and intelligent policy tracking
- Reduces manual effort, increases audit readiness, and delivers instant insights

A FEATURE SET DELIVERS

Real - Time Monitoring

Live risk and compliance visibility across functions and geographies

AI-Powered Intelligence

Predictive analytics to assess and mitigate threats before they occur

Compliance Automation

Auto-monitoring, reporting, and audit trails for industry frameworks

Policy Management

Centralized, versioned policies with automated compliance checks

Multi-Framework Support

ISO 27001, NIST, SOX, HIPAA, GDPR, PCI-DSS, and more

Third-Party Risk

Evaluate vendor and partner risk with dedicated modules

Continuous Control

Ongoing oversight of operational, regulatory, and IT controls

Executive Dashboards

High-level insights, audit trail summaries, and compliance KPIs

Competitive Edge

| RISKAVAIRE | Legacy GRC |
|-----------------------------|-----------------------------|
| ✓ AI-driven automation | ✗ Manual framework |
| ✓ Cost-effective deployment | ✗ High implementation costs |
| ✓ Real-time alignment | ✗ Rule-based updates |
